

TEA publication models

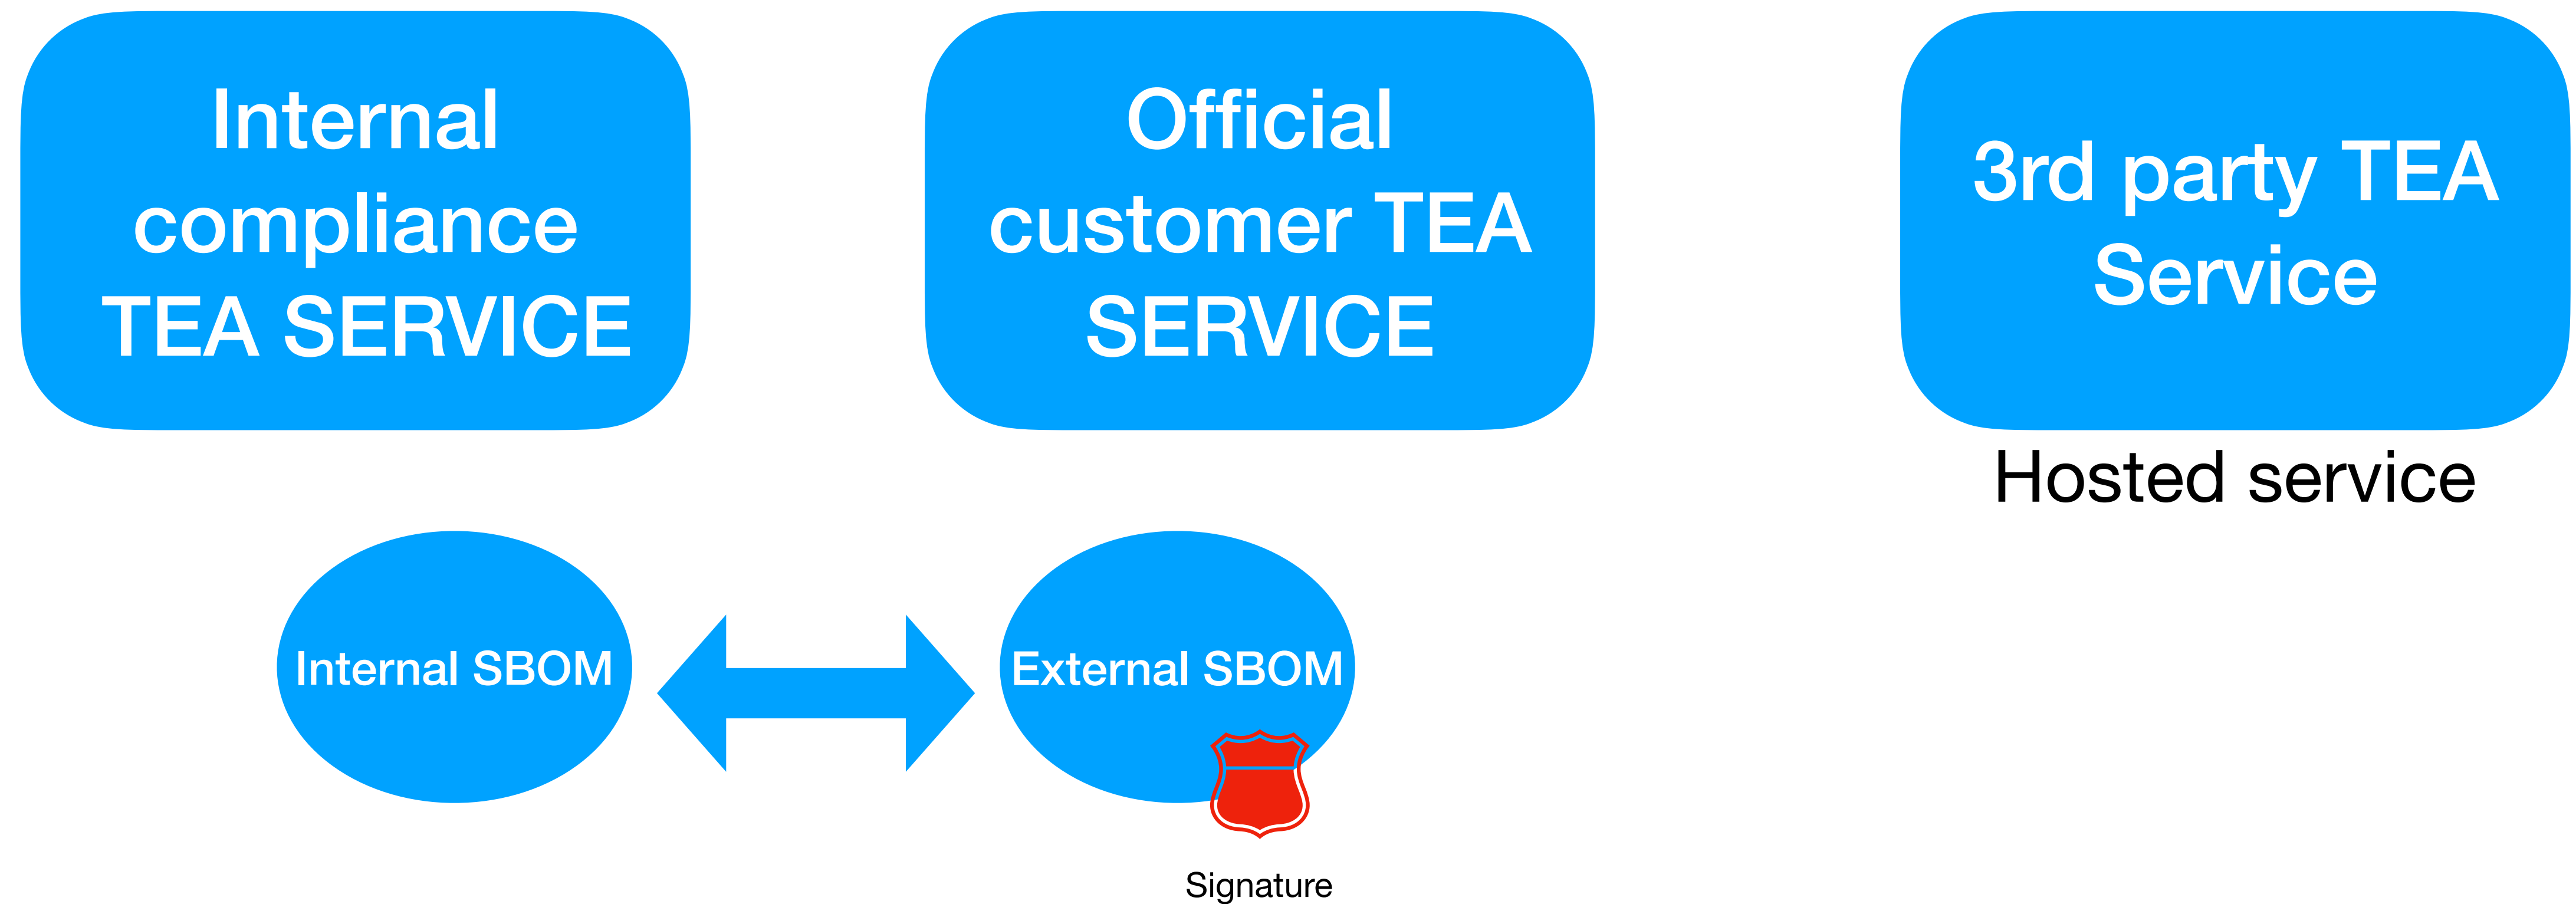

oej@edvina.net
2024-10-23 v0.3

Project KOALA

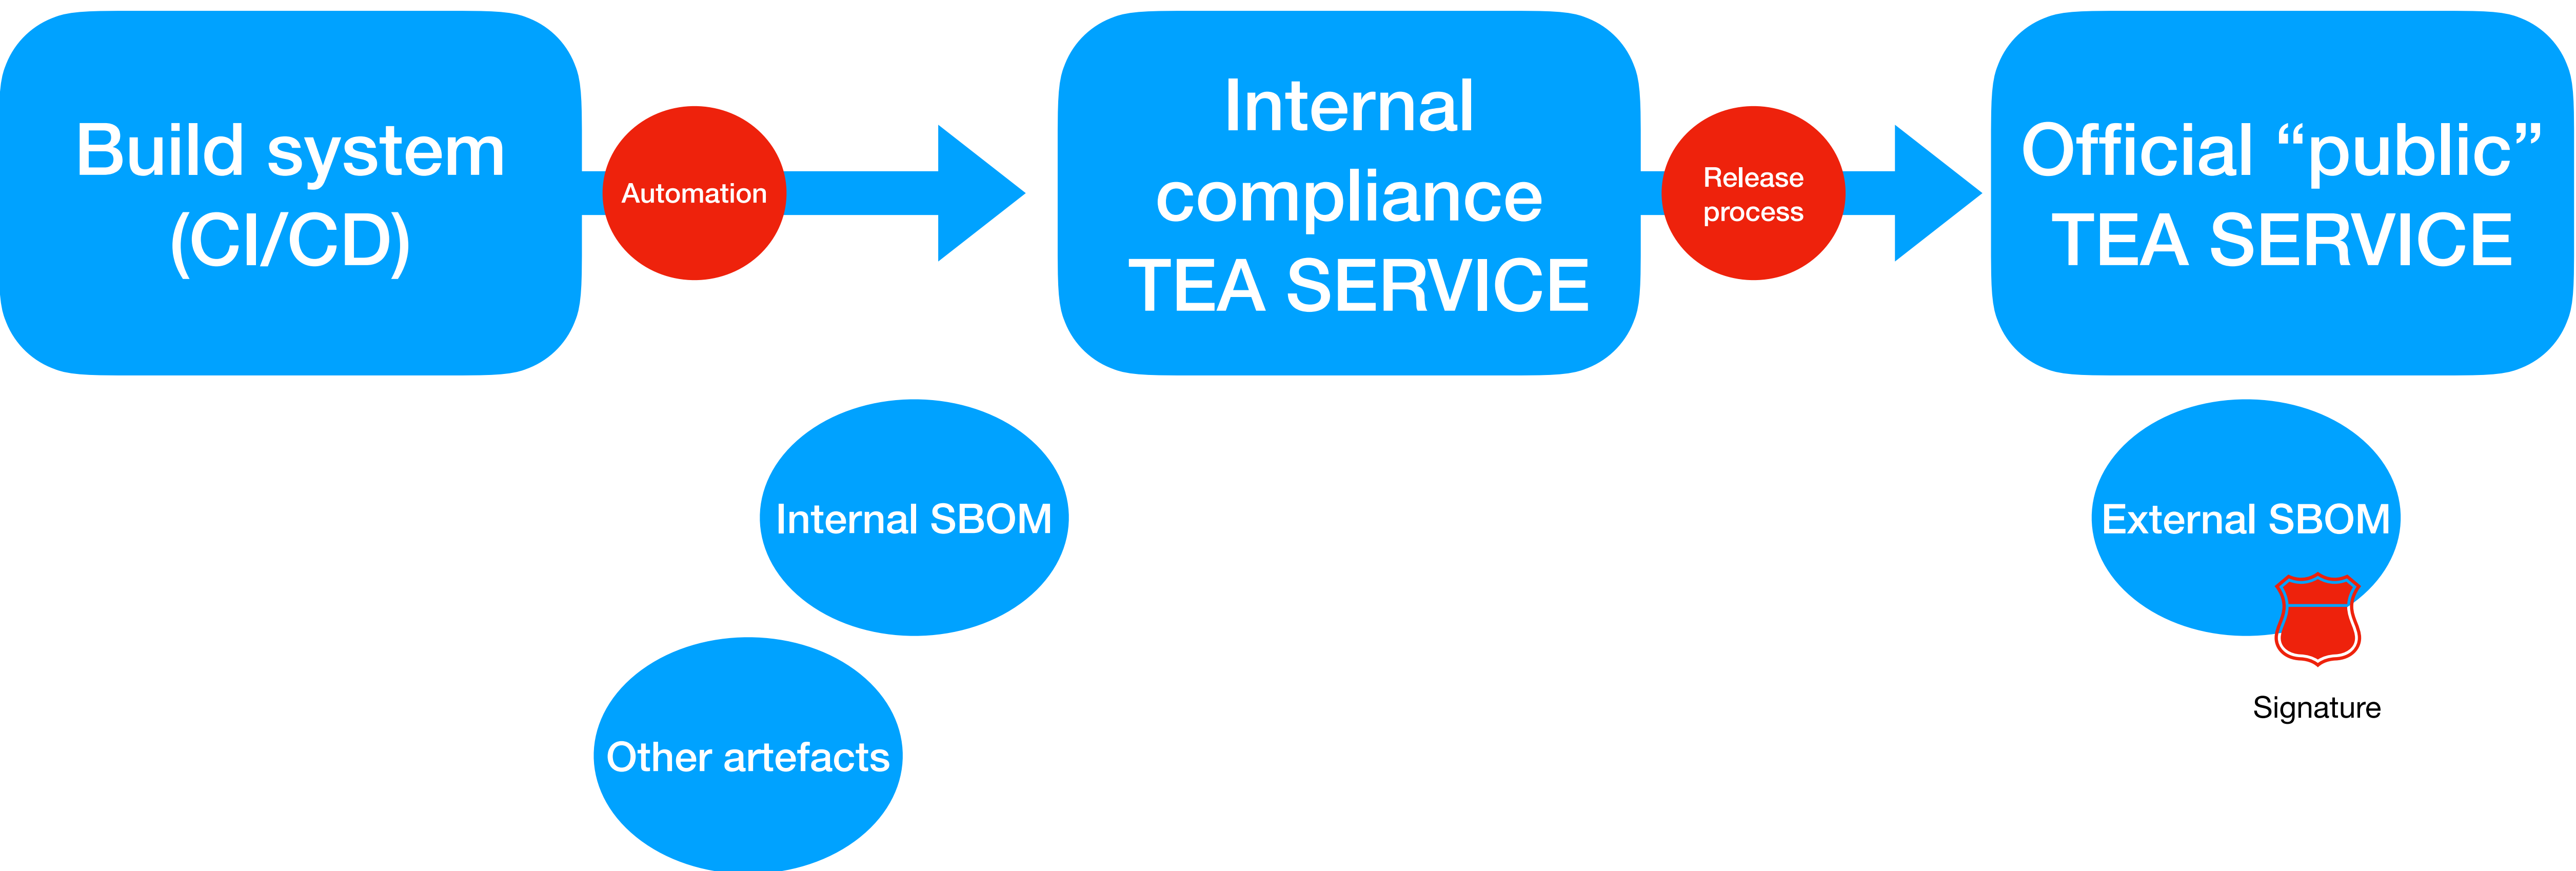

A TEA platform

Types of “TEA-pots”

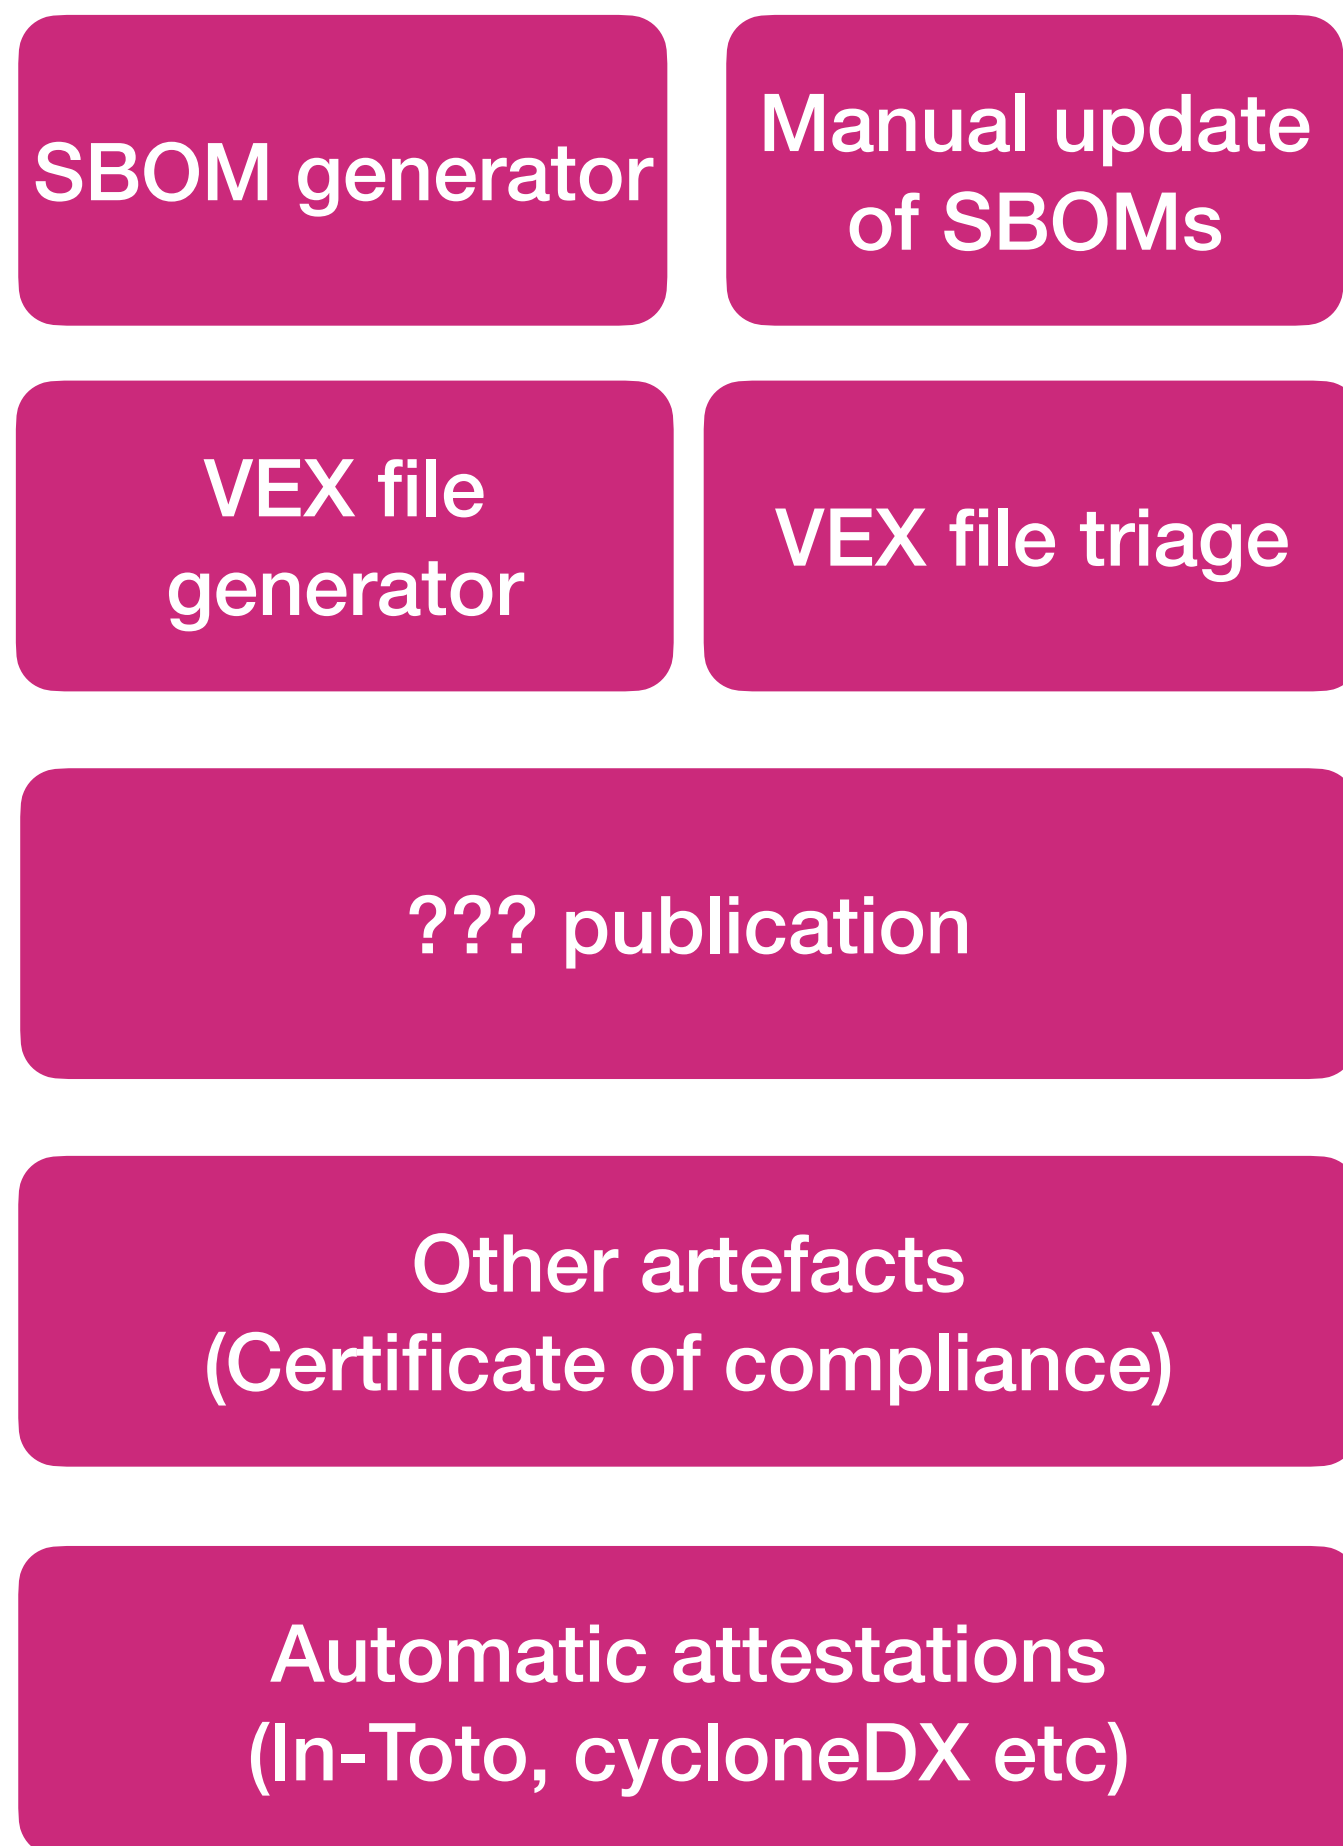

Example of a TEA Workflow

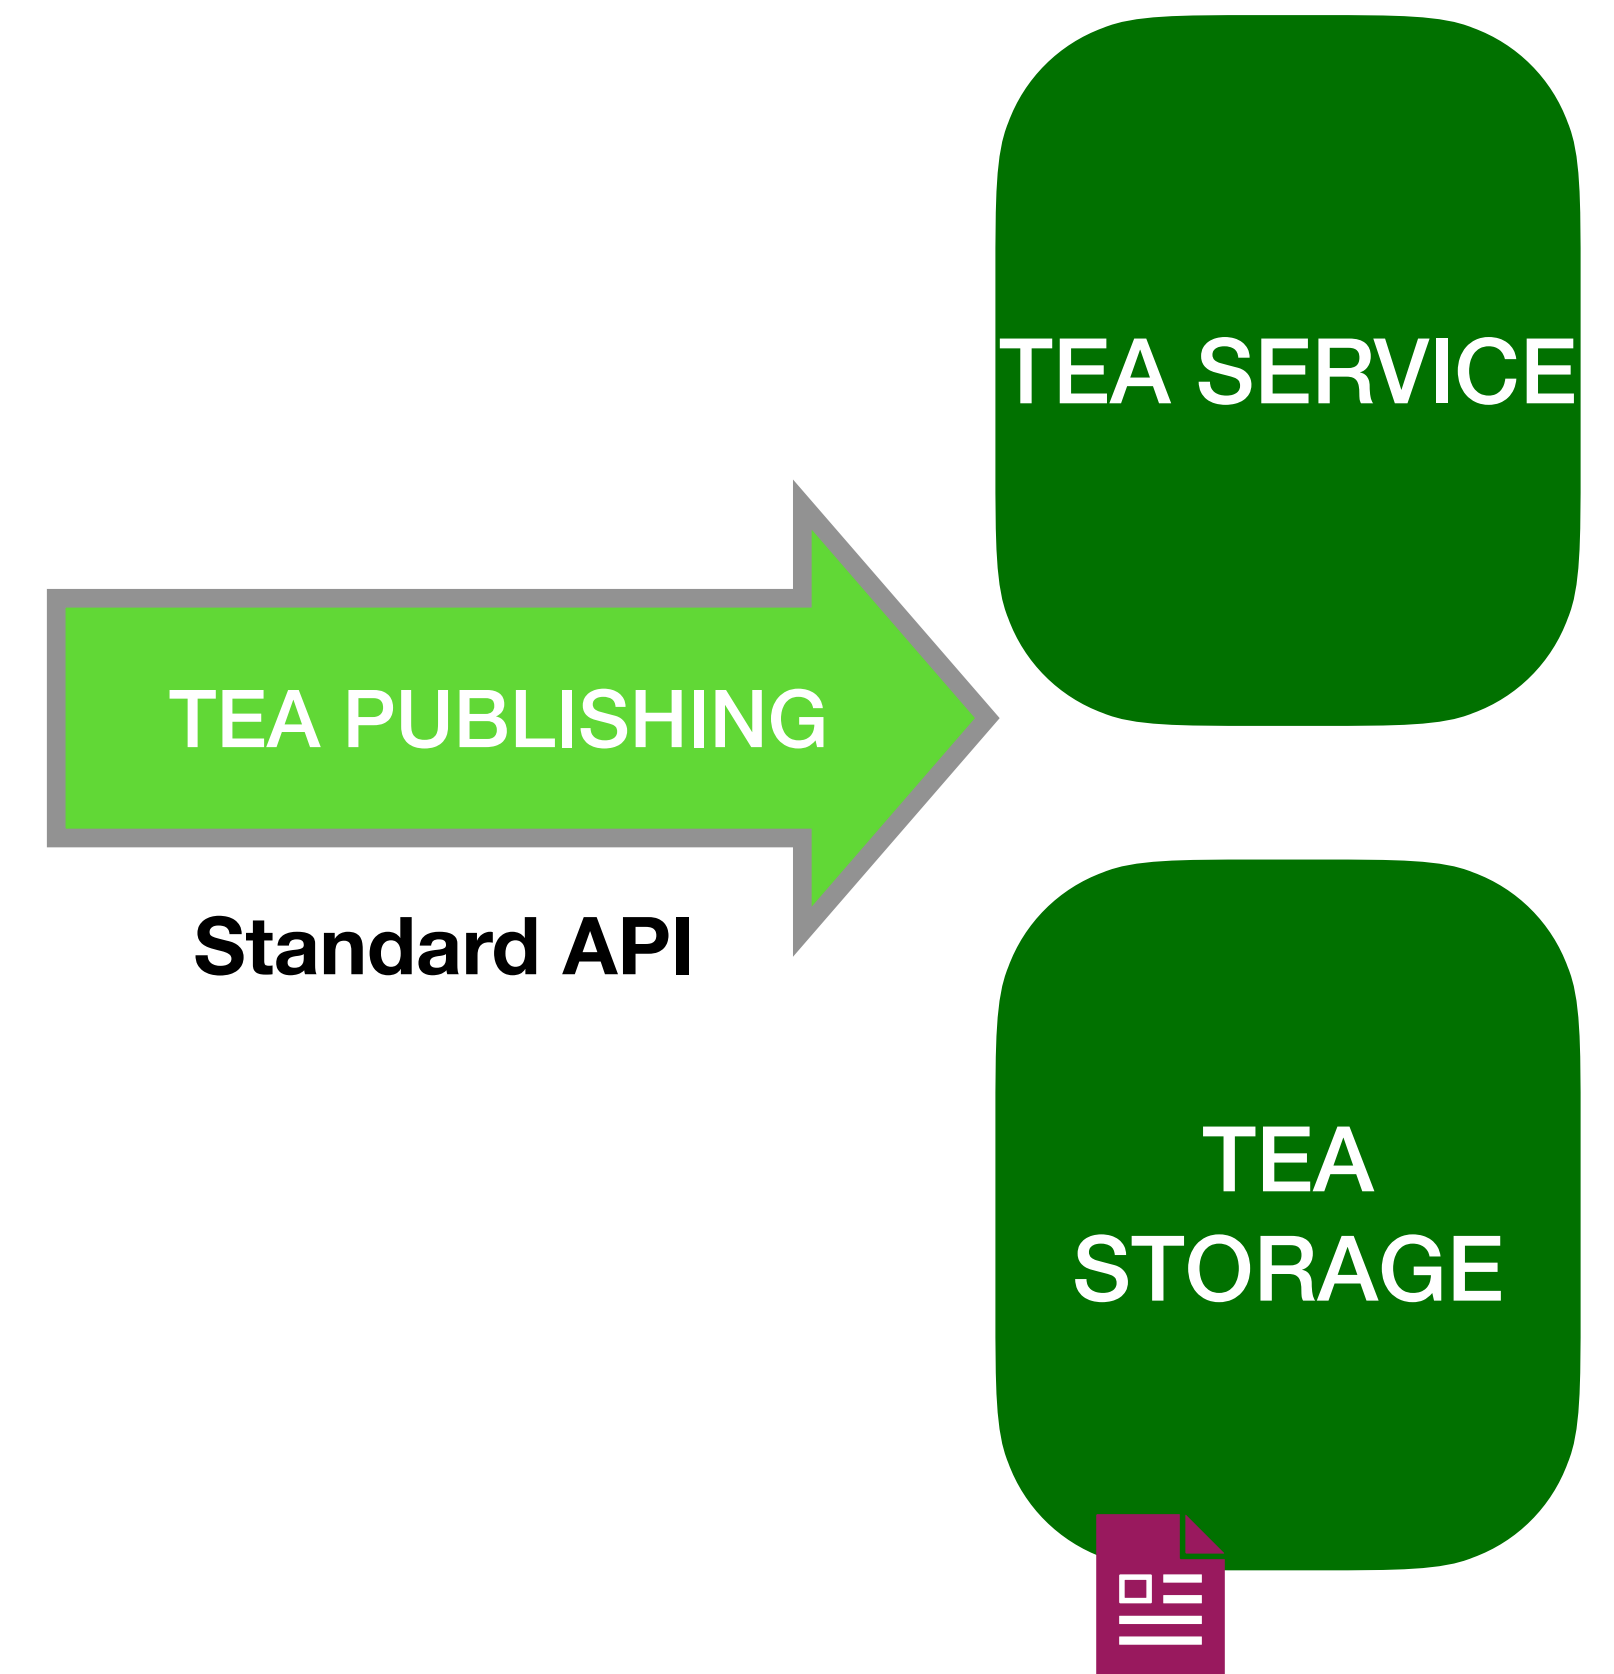

The publication process

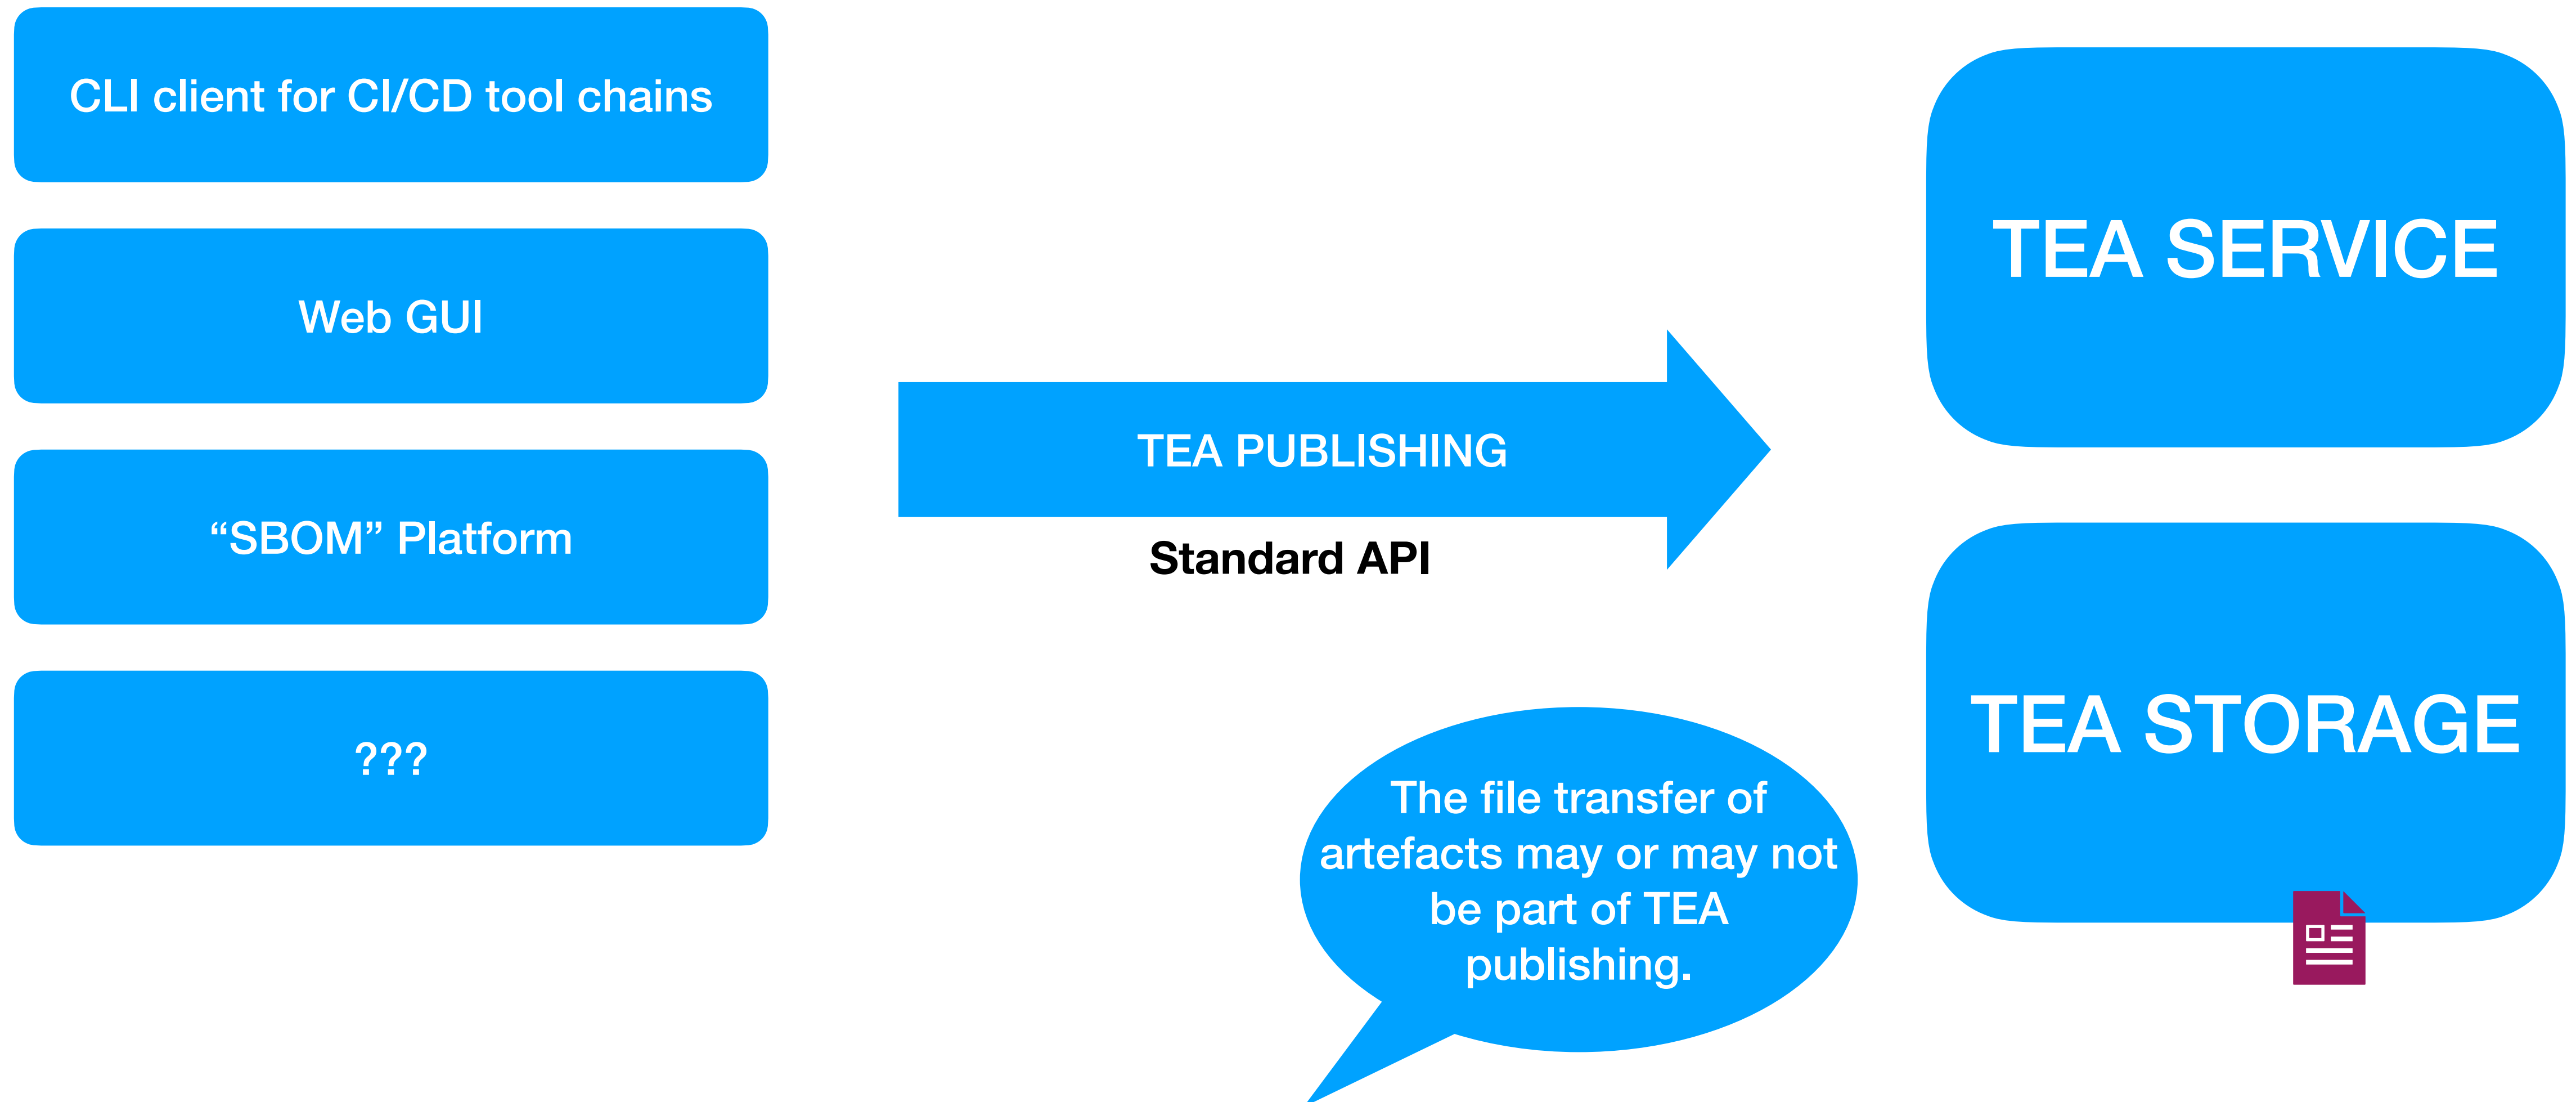

Artefact generation

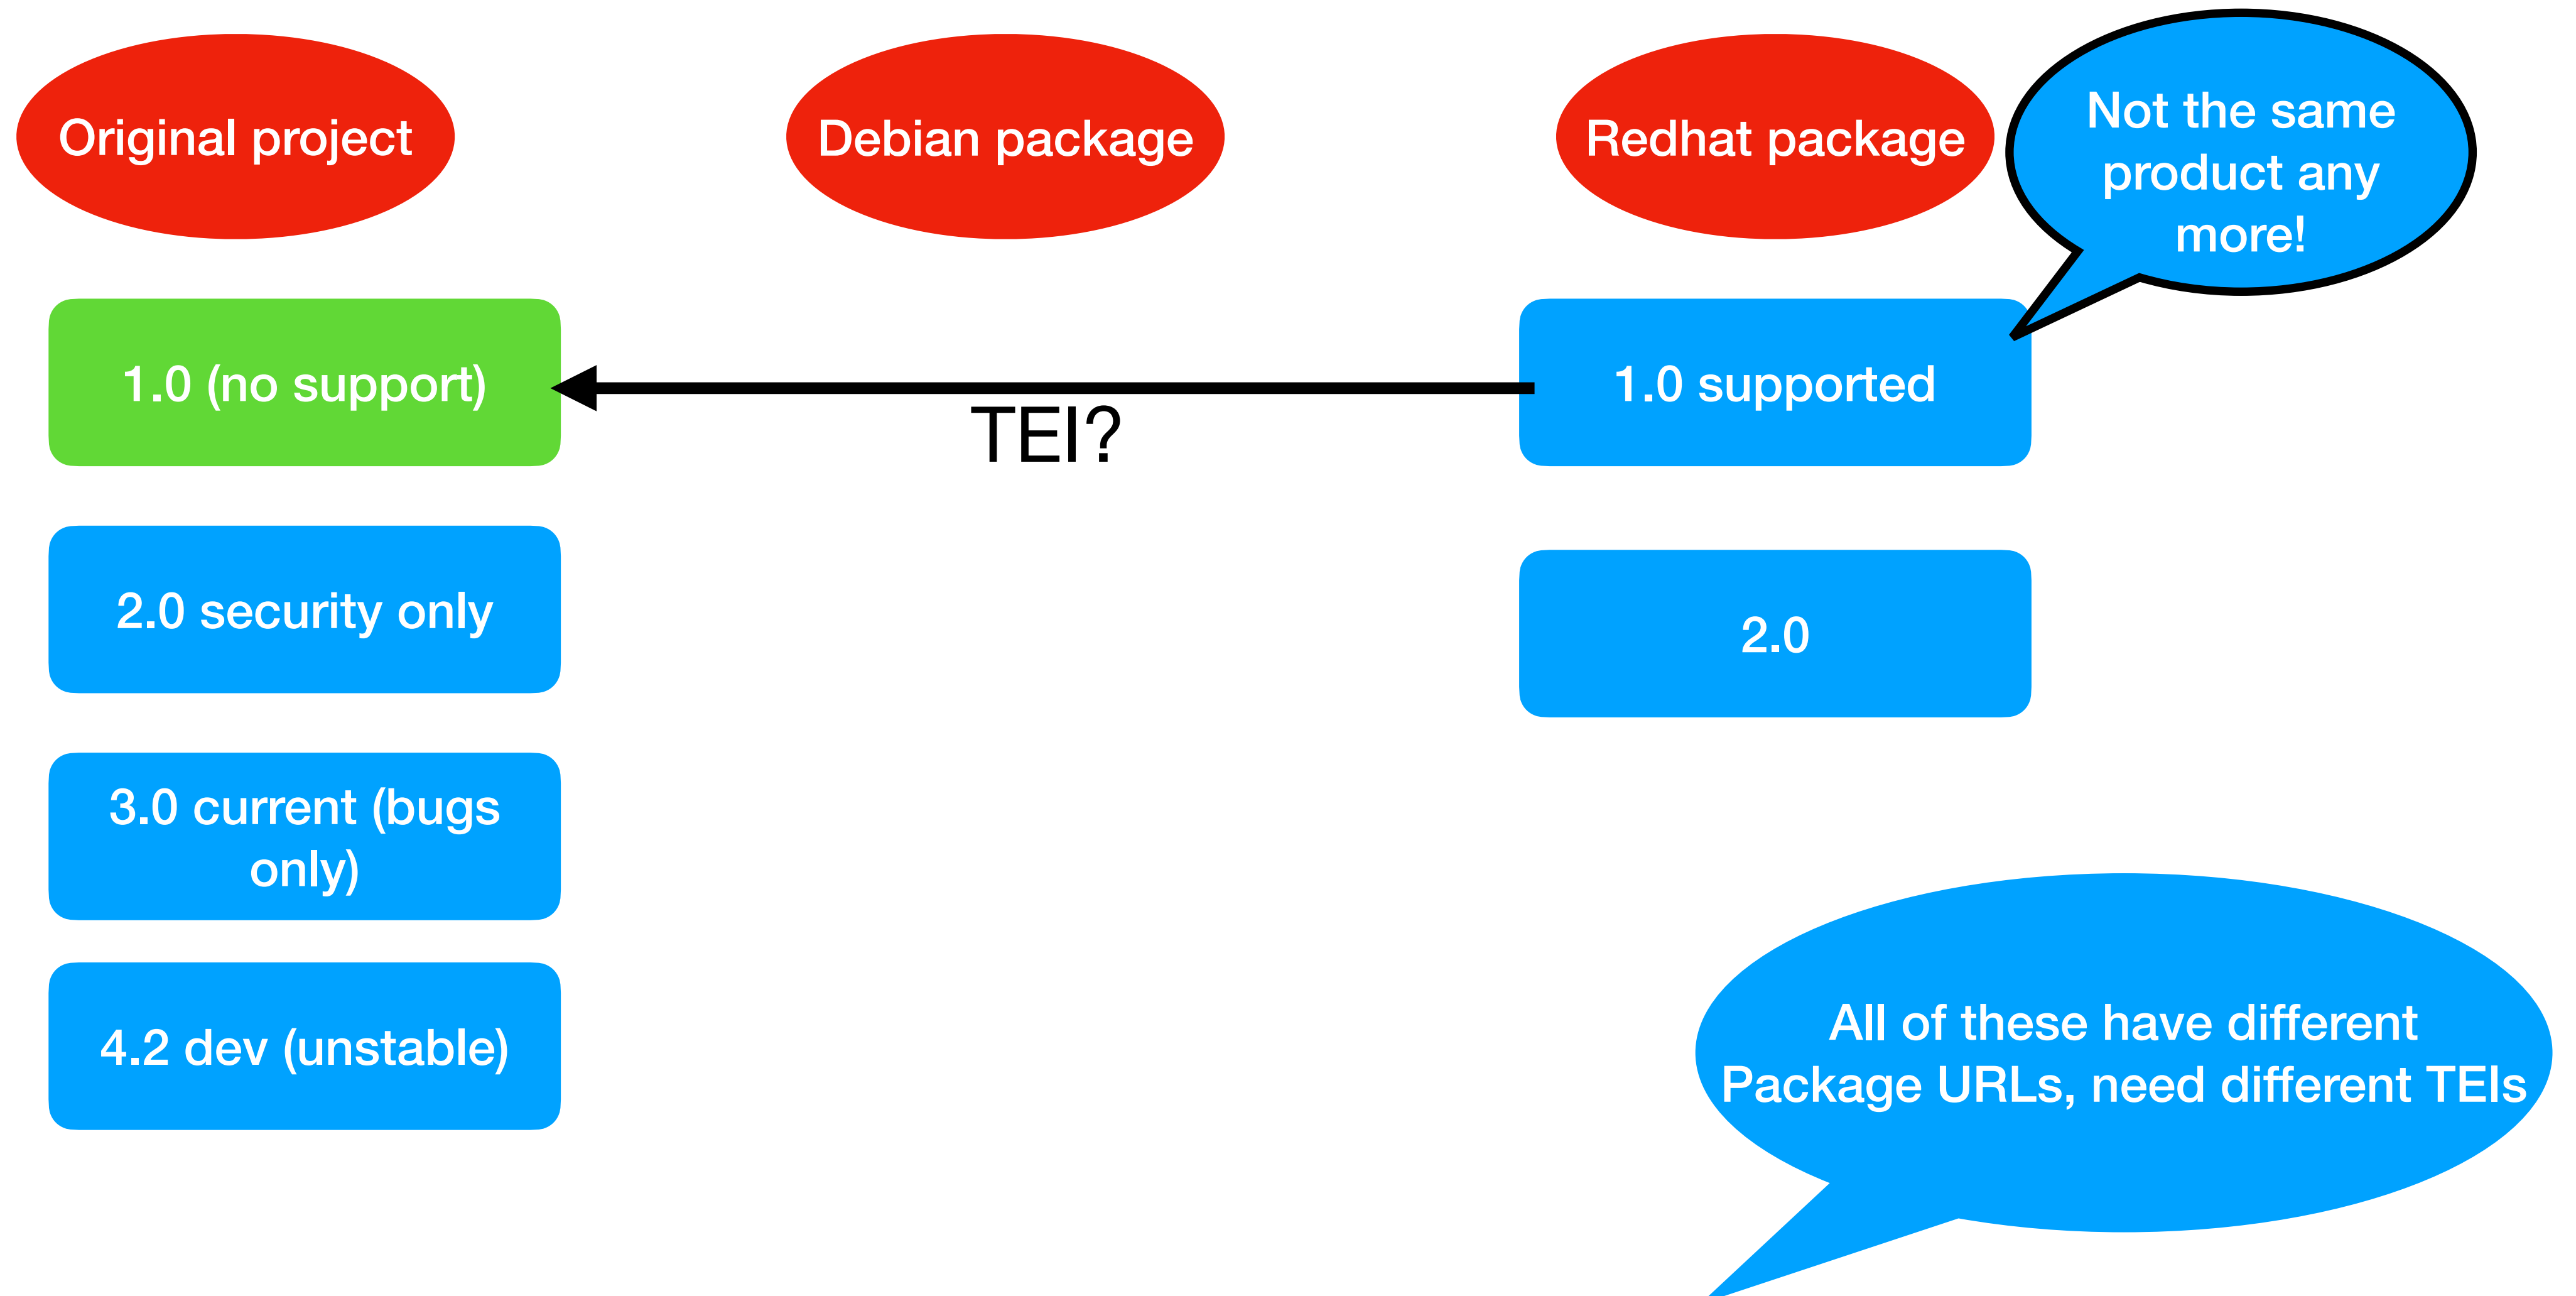

Artefact publication

Focus on publication

Packaging

Todo

Figure out how the signing fits into the workflow

Figure out integration to SCITT

Check out how package ecosystems work

Github

Perl

NPM

Maven

Python

Debian

Red Hat

Where is the SBOM?

Possibly set up a meeting to discuss

Join the work!

**We are working on writing specifications for
the API and the various formats.**

Join the OWASP CycloneDX Transparency Exchange API working group today to participate.
We have a channel in the CycloneDX slack space to communicate.
Find all the links on our github page!
